The democracy of the people on the Peto say to them, that it is democratic to resist appropriations for making roads by the dwelling of the new settlers, will be taught a lesson on equal rights and democratic principles, which they will not soon forget. The eastern section of our State has a very fine soil, and other superior advantages for the settler and it requires legislative aid to make roads through the counchusetts stands ready to pay one half the expenacs of the same Can Duniel Emery, under any pretence whatever, obtain a single vote up river? Can it be possible that the people of this county will sustain men who go against in provements, especially when those improvements go for the spec al advantage of the wholpeople. No man need tell us that there was any ther reason for attempting to reject Col Car the interest, the plain, palpable interest of the for liberty, for himself, for his countrymen, and epposed to the Armstook road, or the lind bill are striving to deprive us of The hierty of Can the generous, free hearted men up river speech the sacred right of Pention, and of be give their votes to those who oppose all action on the "Boundary" Look at the votes of Em erwon this question. He opposed the able reports for the subject, and they gave a strong exposition of our rights, and exhibited a deterinination to defend them. We appeal to and the people long enough, and that it was time ank our fellow citizens if you can support a man | for a change who has exerted his influence against your dearest rights and most sacred privileges. We go at the approaching election stecidedly and strongly for opening the public ! Jands to the actual settler. It is for the inter-

est of the State to do it, as well as their duty We are losing annually some of our most valur ble young men, who go to the western country They would prefer New England, but this narrow minded policy forces them from their home. A new day is downing, give its a Whig ad inimistration, and you will see improvement go ing on with a strong hand. Is it not well to awail ourselves of the aid of Massachusetts while she is a joint owner of the lands. She is willing to pay one half of the expense for the roads, and why not unite with her on such favoidble terms?

THE CHILD AT PRAYER

Pouglikeepsie Pelegraph

'Twas summers eve the rosy light Had taded from the sky, And start come twinkling pure and bright, Through the blue arch on high,

And the western breezes softly stole, To kiss the weeping flower, And nature wore her sweetest smile, To bless the twilight hour

There sat within a curtained room, A mather young and fair What voice comes softly through the gloom T's childhood's viice in prajer! A cherub boy is kneeling now. Beside that mother a knee She who had trught him when to bow Before the Deity

A fither on the distant deep, A sister clumbering mar, A babe upon the mother a breast, And that kind mother dear, For every fromg thing he loves, His pray r ascends to heaven. And f rhimself he humbly asks Each sin to be for given

And in after years, when grief Shall bow his spirit down, And the world- the cold and bitter world, Shill meet him with a frown And when allured from virtue's path He treads a dangerous way Oh ' he will tern to the blest hour When first he knelt to pray

And the kind hand which then was laid Upon his silken hair And the soft voice which trug it him first His sumple words of prayer Will come again with thrilling power

To still ina palses wild And lure has back in that dark hour As amless as a child

The pray ris oer the last fond kiss

By that kind mother given, But rises not from scene like this That childish prayer to heaven? It does it does an angels wing Ha borne its time with joy And the earnest blessings which it sought Comes on the sleeping boy

PATENT SAFETY TUSE.

The Prient Safety Fuse in Clasting, takes inc. Arch West Market Place. Apply to place of priming medle and matchy and removes all danger in a riking tire in tamping and burns at a measured rate renders the dangerous business of The House on Columbia street now or measured rate remains other employment. It is a brick blasting as safe as any other employment. It saves, timement postessing every necessary con-timement and labor. It allows the tamping to be a ranged hard home, and leaves only an or he help It is located in an ex- rainmed hard hom - and leaves only an or he the l size of a knitting needle. It adds considerable to the force of the blast, by igniting the charge at the bollom

The following certificates are deemed sufficient Having seen the Patent Safety Fuse for blasting tested to our satisfaction, we cheerfully certify that we are convinced that it saves much time and labor blasting it is a great improvement but for wet ground it is invaluable. Missrs. F. Hitchins & Co. contractors on Free canal certify that they have been engaged in the Cornesh Mores England where the Fuse is extensively used and that it has never to their knowledge failed. They confirm our opin ame and firm of L CUTLER & CO. is dis ion of its value soon be in unit ersal lise.
